INFORMATION DISCLOSURE STATEMENT UNDER 37 CFR §1.97 (as amended)

In compliance with Applicant and his attorney's duty of disclosure under 37 CFR § 1.56, Applicant submits herewith a copy of copending application Serial No. 09/646,248 of which he is aware and which he believes may be material to the examination of this application, and in respect of which he may be under a duty to disclose. Copies of the Patent Cooperation Treaty applications listed on the attached Form PTO-A820, which the subject application is claiming priority thereto, are not enclosed as these documents were previously submitted to the U.S. Patent and Trademark Office by The International Bureau of WIPO.

While the Information Disclosure Statement may cite materials which are "material" to examination of the Application pursuant to 37 CFR § 1.56, it is not intended to constitute an admission that any patent, publication, or other information referred to therein is "prior art" for this invention unless specifically designated as such. In accordance with 37 CFR § 1.97(g) and

(h), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 CFR §1.56(b) exists.

The documents listed on the attached Form PTO-A820 are either international applications published under the Patent Cooperation Treaty or the copending application Serial No. 09/646,248 which are known to the inventor prior to the filing of this application. While each reference relates to the broad general area of interest within which the present invention falls, it is submitted that none of the references, either taken singularly or in combination, would render the claims of the present invention obvious to one of ordinary skill in the art.

Respectfully submitted,
